Matt Cullen remarked this morning that the iron claims of the Taylor estate had passed into hands likely to something with them, and which would not allow them to lie idle, as it was very likely the purpose of the Colorado Fuel & Iron company to do had that concern secured control of the valuable properties. Mr. Cullen has now greater hopes than ever of the building of great iron furnaces in that country before long, with a big rolling mill

plant in the not very distant future. The new 24-inch water main connection with the brick tank in City Creek canyon has been completed and the supply is now being carried through that channel to the intersection of South Temple and Main and West Temple streets. There is thus afforded an ample supply of water in cases of fire or any other exigency in the business district of the city. the old 16-inch main will also be used to carry water from City creek at times when there would be an overflow

He first took her to Colorado with the intention, he says, of making enough money to send her back to her home in Europe. But here was no work so he came to Salt Lake. He says his only reason for taking the young wife was that he felt sorry for her and wanted to help her out of her difficulties. The arrest was made on the complaint of the husband.

Special Agent Wendell Baker of the long distance department of the American Bell Telephone company registered at the Knutsford this noon, while in town on a western trip, and called on General Supt. Murray of the Bell Tele-phone company. Mr. Baker says that Saturday night's successful experiment in this city and Helena of having a soloist and his piano accompaniment 525 miles apart is entirely new in long distance telephoning, and he learned of the incident with much interest. Mr. Baker says that by the adoption of the "Pupian coil" in operation of the long distance telephone, it is now possible to talk between Omaha and New York in a whisper, and he did this every thing recently. He tells of how a young lady aspirant in New York for a posi-tion as singer with Thomas' orchestra arranged with the telephone company and sang for the great conductor i Chicago while she was in New York but her accompaniment was played where she sang. Mr. Baker is enthusiastic over the possibilities of telephonic achievement in the future.

# SUNDAY SCHOOL UNION MEETING.

Splendid Musical Program Given By 17th Ward School Children.

UNIFORM COURSE OF STUDY

Presented for Adoption in the School Of Stake-Department Work-Superintenden's Conference.

Judging from the large number of Sunday school workers in attendance at the meeting of the Salt Lake Stake Sunday School Union, held in the Sixteenth ward meeting house last evening, had the weather been inviting, the building, large though it is, would have been thronged far beyond its capacity. Through the courtesy of Bishop Emery and Supt. Arthur Frewin, the Union was tendered the use of the building for this occasion and a most interesting meeting and pleasant time was experienced by nearly 400 Sunday school officers and teachers of the stake. The musical program rendered by the Seventeenth ward, under the direction of Elder Evan Arthur, with Sister Gwendolin Lewis Little at the pipe organ, was a most pleasing feature, consisting of a children's chorus of 52 voices rendering the selection, "The Children's Friend." A coral by Hazel Cannon and Mabel Davis, and an organ solo by Sis-

ter Crissic Lawson were also given.

The opening prayer was offered by
Elder Edwin F. Parry.

A number of the schools turned out
in earnest and are deserving of credit
for their large representation. The for their large representation. The Seventeenth leads, with 99. The Six-teenth came next with 37, then the Twenty-seventh with 34; the Second with 21, and Twenty-first with 20. All the city schools, also Brighton and Cannon, were well represented. Biships Emery, Empey and Maxwell were also present in the interest of their schools. The Seventeenth ward also furnished

"Revelation on Word of Wisdom."

Asst.-Supt. C. B. Felt addressed the meeting briefly on the necessity of teachers cultivating the love of their pupils, showing that this is necessary in order to gain their respect, obed-ience, and an observance of the lessons taught in the Sunday school. Said careconsideration should be given to the choice gifts of God intrusted in our care and this means should be adopted to win their respect and obedience. The speaker also referred to the Scriptures to show the necessity of love

prompting and guiding our actions in order that the children might be inspired to imitate our example and weave into their lives the teachings they receive from us. He also referred to the necessity of teachers recognizing their pupils on the street as well as in the Sunday school, and to visit them in their homes. Supt. Burrows said that in associating with the department instructors the Union, they had been impressed with the necessity of a uniform course

of study in order to accomplish the most good in the schools throughout the stake and in consequence the stake had formulated a course which had been approved by the stake presidency and Union Board and now submitted to the superintendents for their consideration and adoption. Also announced a district conference

for June 29 in the Seventh ward be-

tween the Seventh and Eighth ward The Ninth ward was requested to conduct the concert recitation "Revela-tion on the Word of Wisdom" at the May meeting and Stake Missionary D. W. Parratt would conduct the recita-

tion "O My Father" in which the entire congregation would be invited to The meeting then divided for department work.

In the superintendents' meeting at-tention was called to redeeming features in recent missionary reports and the fact that reports were missing from me schools visited during the past onth. The reports generally show a very favorable condition.

The Fourth, Fifth, Sixth, Seventh,

fourth, Twenty-fifth, Thirtieth and Center schools were requested to call on Supt. Burrows for their bound volumes of the Juvenile Instructor. Burrows reported the Fifth account of Supt. D. C. Rushton having G. E. Burbidge and T. C. Nuttall were

set apart as superintendent and first Special attention was called to the officers' roll books and class registers, which are very greatly neglected in some schools. Very great care should be bestowed upon them and all preerved for future reference.

It was suggested that one of the offiassembly room while the 9:45 prayer meeting is in session in order that perfect order might be preserved.

A third district conference was ap-pointed for July 27 between the Six-teenth and Seventeenth wards to be held in the Sixteenth ward meeting matter, several of the city schools adourned during the general conference.

A letter from the general superintend-ency was read showing that they were not in accord with this action and requesting that it be not done in the future, but that sessions be held during the general conference. This does not interfere with the arrangement where-"Theological" classes are expected to attend the "stake" conference.

The newly outlined course of study

referred to above was presented and briefly explained, on which a few comments were made and questions asked and finally left in the hands of the superintendents.

The theological department finished their study of the Book of Abraham and the Creation. The second intermediate department ented and discussed the new course

of study in detail. The first intermediate department had a model lesson presented by Elder W. D. Bowring of the Sixteenth ward, subject story of Moses and the Israel-

The primary had Old Testament history containing lessons on Joseph, Ruler of Egypt, with "Forgiveness" The kindergarten lesson was the Book of Mormon "Travels of Lehi

and family."
Elder T. C. Griggs of the Union Board made a few interesting remarks on the attention being given to detail work was especially pleasing and would certainly result in placing the stake schools among the foremost in the

Church. Asst.-Supt. W. C. Burton extended the thanks and appreciation of the Union to Bishop Emery and Supt. Frewin for the courtesies extended. The Eighteenth ward was requested

to furnish the music for the May meet-

Truth," and benediction was pronounced by Elder Lewis T. Cannon of Cannon ward.

# THE POOLE CASE,

Second Day of it in the City Police Court.

The preliminary hearing of Harry Pool, charged with robbery, was continued in Judge Diehl's court this morning. Miss Higgins was recalled for cross-

examination by Mr. Hamilton. The young lady testified that she first spoke of a button being off the coat, to her parents, and later to Detective Chase. Hamilton subjected the witness to a igid examination but was unable shake her testimony on any material

Clarence Driggs, who is employed by Dr. Higgins, described his meeting with Pool and how the robber forced him to lead the way upstairs to the parlor where McMasters and Miss Higgins were. Driggs positively identified Pool and the clothes he wore and the gun he carried. For the purpose of getting his testimony in the record, the witness McMasters was recalled and repeated his testimony. He expects to go to ifornia with the Higgins family. The case was continued until this after-noon at 2:30 o'clock.

The complaint is drawn up in the usual form and charges that the defendant murdered Johnson on the 18th day of April. The complaint is sworn to by Sheriff George H. Naylor.
